And

**"Austrian Film Institute" AFI**, Stiftgasse 6, 1070 Vienna, Austria (AFI),

hereinafter referred to as "the Parties";

**Purpose of the "Letter of a Goodwill and Intent"**

Mindful of the fact that mutual cooperation may serve the development of film production and encourage the further development of the cultural ties between the parties, the KCC and the AFI declare with the signing of this "Letter of a Goodwill and Intent" their official partnership and will to cooperate.

It is their mutual intent to encourage co-productions for cinema between the parties, and to support all measures that facilitate and enable all forms and sorts of collaboration within the existing legal frameworks on bi- and multilateral co-productions for cinema films (feature length films and documentaries) within Europe.

We understand this "Letter of a good will and intent" as a clear sign to both our film industries that co-productions between our respective parties are a strategic aim of both film funds. We hope that this "Letter of a Goodwill and Intent" stimulates artistic as well as economic exchange and look forward to a fruitful and sustainable cooperation.

Furthermore, by signing this "Letter of Goodwill and Intent" KCC and AFI show their commitment to developing Memorandums of Understanding (MOUs) and Co-Production Agreements in the future, creating a lasting and mutually beneficial partnership between the parties.
